SUMMARY

Aspiring Java Backend Developer with hands-on experience in building RESTful APIs, implementing JWT-based authentication, and designing database-driven applications. Proficient in Java, Spring Boot, Spring Security, and MySQL, with a strong grasp of clean and secure coding practices. Collaborative team player passionate about solving real-world problems and delivering scalable, maintainable solutions.

PROJECT

Wander_Wise

[github.com/yuneshbyte01/ Wander_Wise](https://github.com/yuneshbyte01/Wander_Wise)

- Engineered a recommendation engine suggesting destinations based on user interests and region filters.
- Designed RESTful APIs for destination search and preference management.
- Optimized query performance, improving recommendation accuracy by 30%.

University Placement System

github.com/yuneshbyte01/placement-system

- Developed a role-based job placement platform with dashboards for STUDENT, ORGANIZATION, and ADMIN roles.
- Implemented JWT-based authentication and Spring Security for secure authorization.
- Built REST APIs for job postings, applications, and profile management.

Spring Auth Template

github.com/yuneshbyte01/spring-auth-template

- Created a Spring Boot authentication template with JWT-based login and role-based access control.
- Configured Spring Security for stateless session handling and secure API endpoints.
- Provided reusable boilerplate code to accelerate backend development.

Chat App

github.com/yuneshbyte01/chat-app

- Built a real-time chat application with Spring Boot and WebSocket /STOMP support.
- Implemented group messaging and private 1-to-1 chats with user-specific routing.
- Designed scalable architecture supporting multiple concurrent sessions.

CSV Insights — Django Data Analysis Tool

[github.com/yuneshbyte01/ csv_insights](https://github.com/yuneshbyte01/csv_insights)

- Developed a Django web app for CSV data analysis and visualization.
- Implemented data cleaning, aggregation, and chart generation using Pandas & Matplotlib.
- Delivered user-friendly dashboards for insights and reporting.

Student-Course Management System

github.com/yuneshbyte01/student-course-management

- Created REST APIs for CRUD operations on students, courses, and enrollments.
 - Integrated Spring Data JPA for smooth database operations.
 - Developed a modular, maintainable architecture improving development efficiency.
-

EDUCATION

BSc in Information Technology

Presidential Graduate School • Thapagaun, Kathmandu • Oct 2023 – Present

Diploma in Civil Engineering

Mahendra Rastriya Secondary School • Baluwatar, Kathmandu • 2019 – 2023 • 3.28

AWARDS & HONORS

Leo of the Month

Leo Club of Kathmandu Saya • July 2024

SKILLS

Java, Python, Spring Boot, Spring Security, Django, REST API

MySQL, MongoDB

HTML, CSS, JavaScript

IntelliJ IDEA, VS Code, Maven, Postman, Git, GitHub
